WORK EXPERIENCE

FREELANCER

Berlin
Aug 2025 - Present

FULL-STACK ENGINEER & AUTOMATION SPECIALIST

- Rendering complex 3D masterplans from Unreal Engine and 3Ds Max within **R3F** environments to achieve high-performance outcomes for mobiles.
- Leveraged **LLMs** (Claude, Gemini, NotebookLM) and Vibe Coding methodologies to rapidly prototype and deploy automation tools.
- Built and deployed full-stack a customizable CV generator with **Angular, RxJS** for reactive state management and dynamic rendering.

ADIDAS

Bogotá
May 2021 - Jun 2025

SOFTWARE ENGINEER

- Led the development of **customization modules** (frontend and 3D) for sportswear's PDP using **Three.js** and **Unity/C#**, enhancing user engagement and its end-to-end testing with **Jest** and **Cypress**.
- Improved reliability and deployment speed of the adidas Checkout **backend** microservice by implementing CI/CD pipelines and infrastructure automation via **Jenkins, Kubernetes**, and **Grafana**, supporting daily transactions across **30+ countries**.
- Developed and maintained scalable frontend components using **ReactJS** and **Next.js** for the Global Team Sports platform, contributing to a personalized user experience for **20+ international markets**.
- Contributed to the front-end architecture of the **Yeezy e-commerce portal**, acclaimed for its minimalist design and **functional programming in Typescript**, resulting in a faster load time.

MADBRICKS

Remote
Sep 2020 - Dec 2020

GAME DEVELOPER

- Developed and maintained hyper-casual mobile games using **Unity, C#** and **Unreal/C++**, enhancing user engagement and UI/UX experience.

UMBRA 3D STUDIO - INTERACTIVE

Bogotá
Jan 2020 - Sep 2020

FRONTEND SOFTWARE DEVELOPER

- Created **immersive 3D applications** with **React, C#** and **Unreal/C++** and interactive masterplan visualisations for the real estate sector (PropTech)
- Developed hyper-casual games in **Unity** and **Virtual Reality** to support brand marketing campaigns and
